

CHILD CARE STORY FORM

Every child is special and unique, but all children need and deserve the same level of health and safety protections while spending time in early care and education settings. However, Alabama is 1 of 7 states that allow broad-based exemptions from licensure and inspection for child care programs.

Do you have a story about licensed or license exempt child care? Lend your voice and share your story with us!

Submitting your story and photo is consent to let us share your story.
