PARENT VOICES FOR PRE-K

Personal stories help us get a better understanding of the issues and make it more memorable. Use these questions to help tell your story about why pre-K matters. Has your child participated in a pre-K program? If so, tell us about the results you are seeing. If not, why do you feel it's important that your child has this opportunity? Why is it important that every child have access to pre-K? Share as much as you would like.

Submitting your story is your consent to let us use your story.
